

Inside Temecula

Temecula Parkway I-15 Interchange Expansion

This long-awaited and much needed expansion of the Temecula Parkway interchange will reduce congestion in southern Temecula, smooth access to business and retail commerce located on Temecula Parkway, and provide faster access to emergency and health services at Temecula Valley Hospital.

In June, the City of Temecula broke ground on the long-awaited Interstate 15 / State Route 79 South (Temecula Parkway) Ultimate Interchange project which will reconfigure the on-ramps and off-ramps to Interstate 15. The project will include a new southbound auxiliary lane with a continuous movement looping off-ramp, allowing southbound motorists to exit from I-15 and head east on Temecula Parkway without stopping. The new on-ramp to southbound I-15 will align with Old Town Front Street. Improvements also include widening Temecula Parkway between Bedford Court and the freeway, as well as making improvements and adding lanes to the northbound on and off-ramps. Once completed, the project will improve traffic flow entering and exiting the freeway, eliminate the ever-present line of vehicles waiting to exit southbound I-15, throttle traffic entering the freeway with ramp meters and HOV lanes added to the on-ramps, and add more turn-lanes onto a widened Temecula Parkway.

COST \$50.7M
Approximately

TIMELINE
18 MONTHS
to completion

The improvements will be constructed in phases to keep traffic flowing through the project site.

FUNDING

- Federal SAFETEA-LU
- Federal Surface Transportation Program (STP)
- Transportation Uniform Mitigation Fee (TUMF)
- Nearly \$14.5M from the Pechanga Tribe through SB621

The City of Temecula is committed to a strong presence of public safety, beautifully maintained infrastructure, and a high quality of life for its residents and businesses.

The GOAL Traffic relief for Temecula's south end of town.

MEASURE "S" AT WORK FOR YOU...

INCREASING PUBLIC SAFETY

11 New Full-Time Sworn Police Officers Hired in the City of Temecula

THE HIRING OF ADDITIONAL LAW ENFORCEMENT OFFICERS IN TEMECULA is the direct result of Measure S and the City's commitment to its residents to preserve the highest levels of public safety.

Temecula citizens made it clear by their vote to pass Measure S that maintaining low crime rates and safe neighborhoods are top priorities.

As soon as the Measure was passed in April 2017, the City of Temecula increased the number of full-time sworn police officers safeguarding residential and commercial neighborhoods throughout the City by a total of 11 positions, including 10 funded as a direct result of Measure S. The 11th police officer is dedicated to the southern portion of Temecula and funded by Pechanga pursuant to an Intergovernmental Agreement due to the expansion of the Pechanga Resort and Casino.

ENHANCING CITY PARKS

Upgrades to City Parks & Playgrounds Utilizing Measure S Funds

UTILIZING MEASURE S FUNDING, together with other sources, the City plans to renovate many existing parks to ensure that they are all unique and inspire creative outdoor play for all ages and abilities. Renovations are planned in FY17-18 for the parks listed below (construction times will vary).

Sunset Park on Camino San Jose: "Music at Sunset" will be the theme with a planned showcase of the "Rhapsody" line of new outdoor musical instruments.

Birdsall Park on Deer Hollow Drive: New synthetic turf will be installed at all four soccer fields! This \$1.7 Million dollar project begins mid-July and will take approximately 6 weeks. Two fields will be done at a time to allow activities on the other two fields.

Nicolas Road Park on Nicolas Road: Renovation to include a towering ship, an octopus climber, and a brand new "Accelerator" swing for maximum "pirate party" fun!

Ronald Reagan Sports Park on Rancho Vista Road: Upgrades will include a full renovation and expansion of the restroom and snack bar facilities. Approximately \$400K is programmed for site improvements at the Community Rec. Center pool area including replacement of pool decking, pool re-plaster, and installation of an enhanced lighting system with energy efficient LED fixtures. The City is planning the design for a "pump track" to complement the existing skate park.

Butterfield Stage Park on DePortola Road: Improvements will include a nature-inspired "Tree House Hideaway" theme!

Vail Ranch Park on Harmony Lane: Residents will take a trip back to the Old West with its nostalgic theme! Improvements will include state-of-the-art play equipment and a 103 foot-long Gravity Rail zip track.

Veteran's Park on La Serena Way: In honor of our troops, a Fighter Jet themed play structure, and lots of opportunities for outdoor exercise at new fitness stations will be located along the park's 600-yard path.

10 Public Restrooms throughout the City will be renovated using Measure S funds

City of Temecula Breaks Ground on Temecula Parkway Interchange Expansion

Continued from Page 1

Construction Start Date: June 2017 • Anticipated End Date: December 2018

Overhead View of New
Southbound On and Off Ramps

TEMECULA PARKWAY EXPANSION

To be widened to 8 lanes (instead of 6) at its widest point near the interchange.

NEW SOUTHBOUND OFF-RAMP

This will be a continuous movement off-ramp that crosses over Temecula Parkway with 3 lanes looping around and widening to 4 lanes at Temecula Parkway. (For comparison, the existing off-ramp has 3 lanes and requires southbound motorists to go through a left turn traffic signal before heading east.)

NEW SOUTHBOUND ON-RAMP

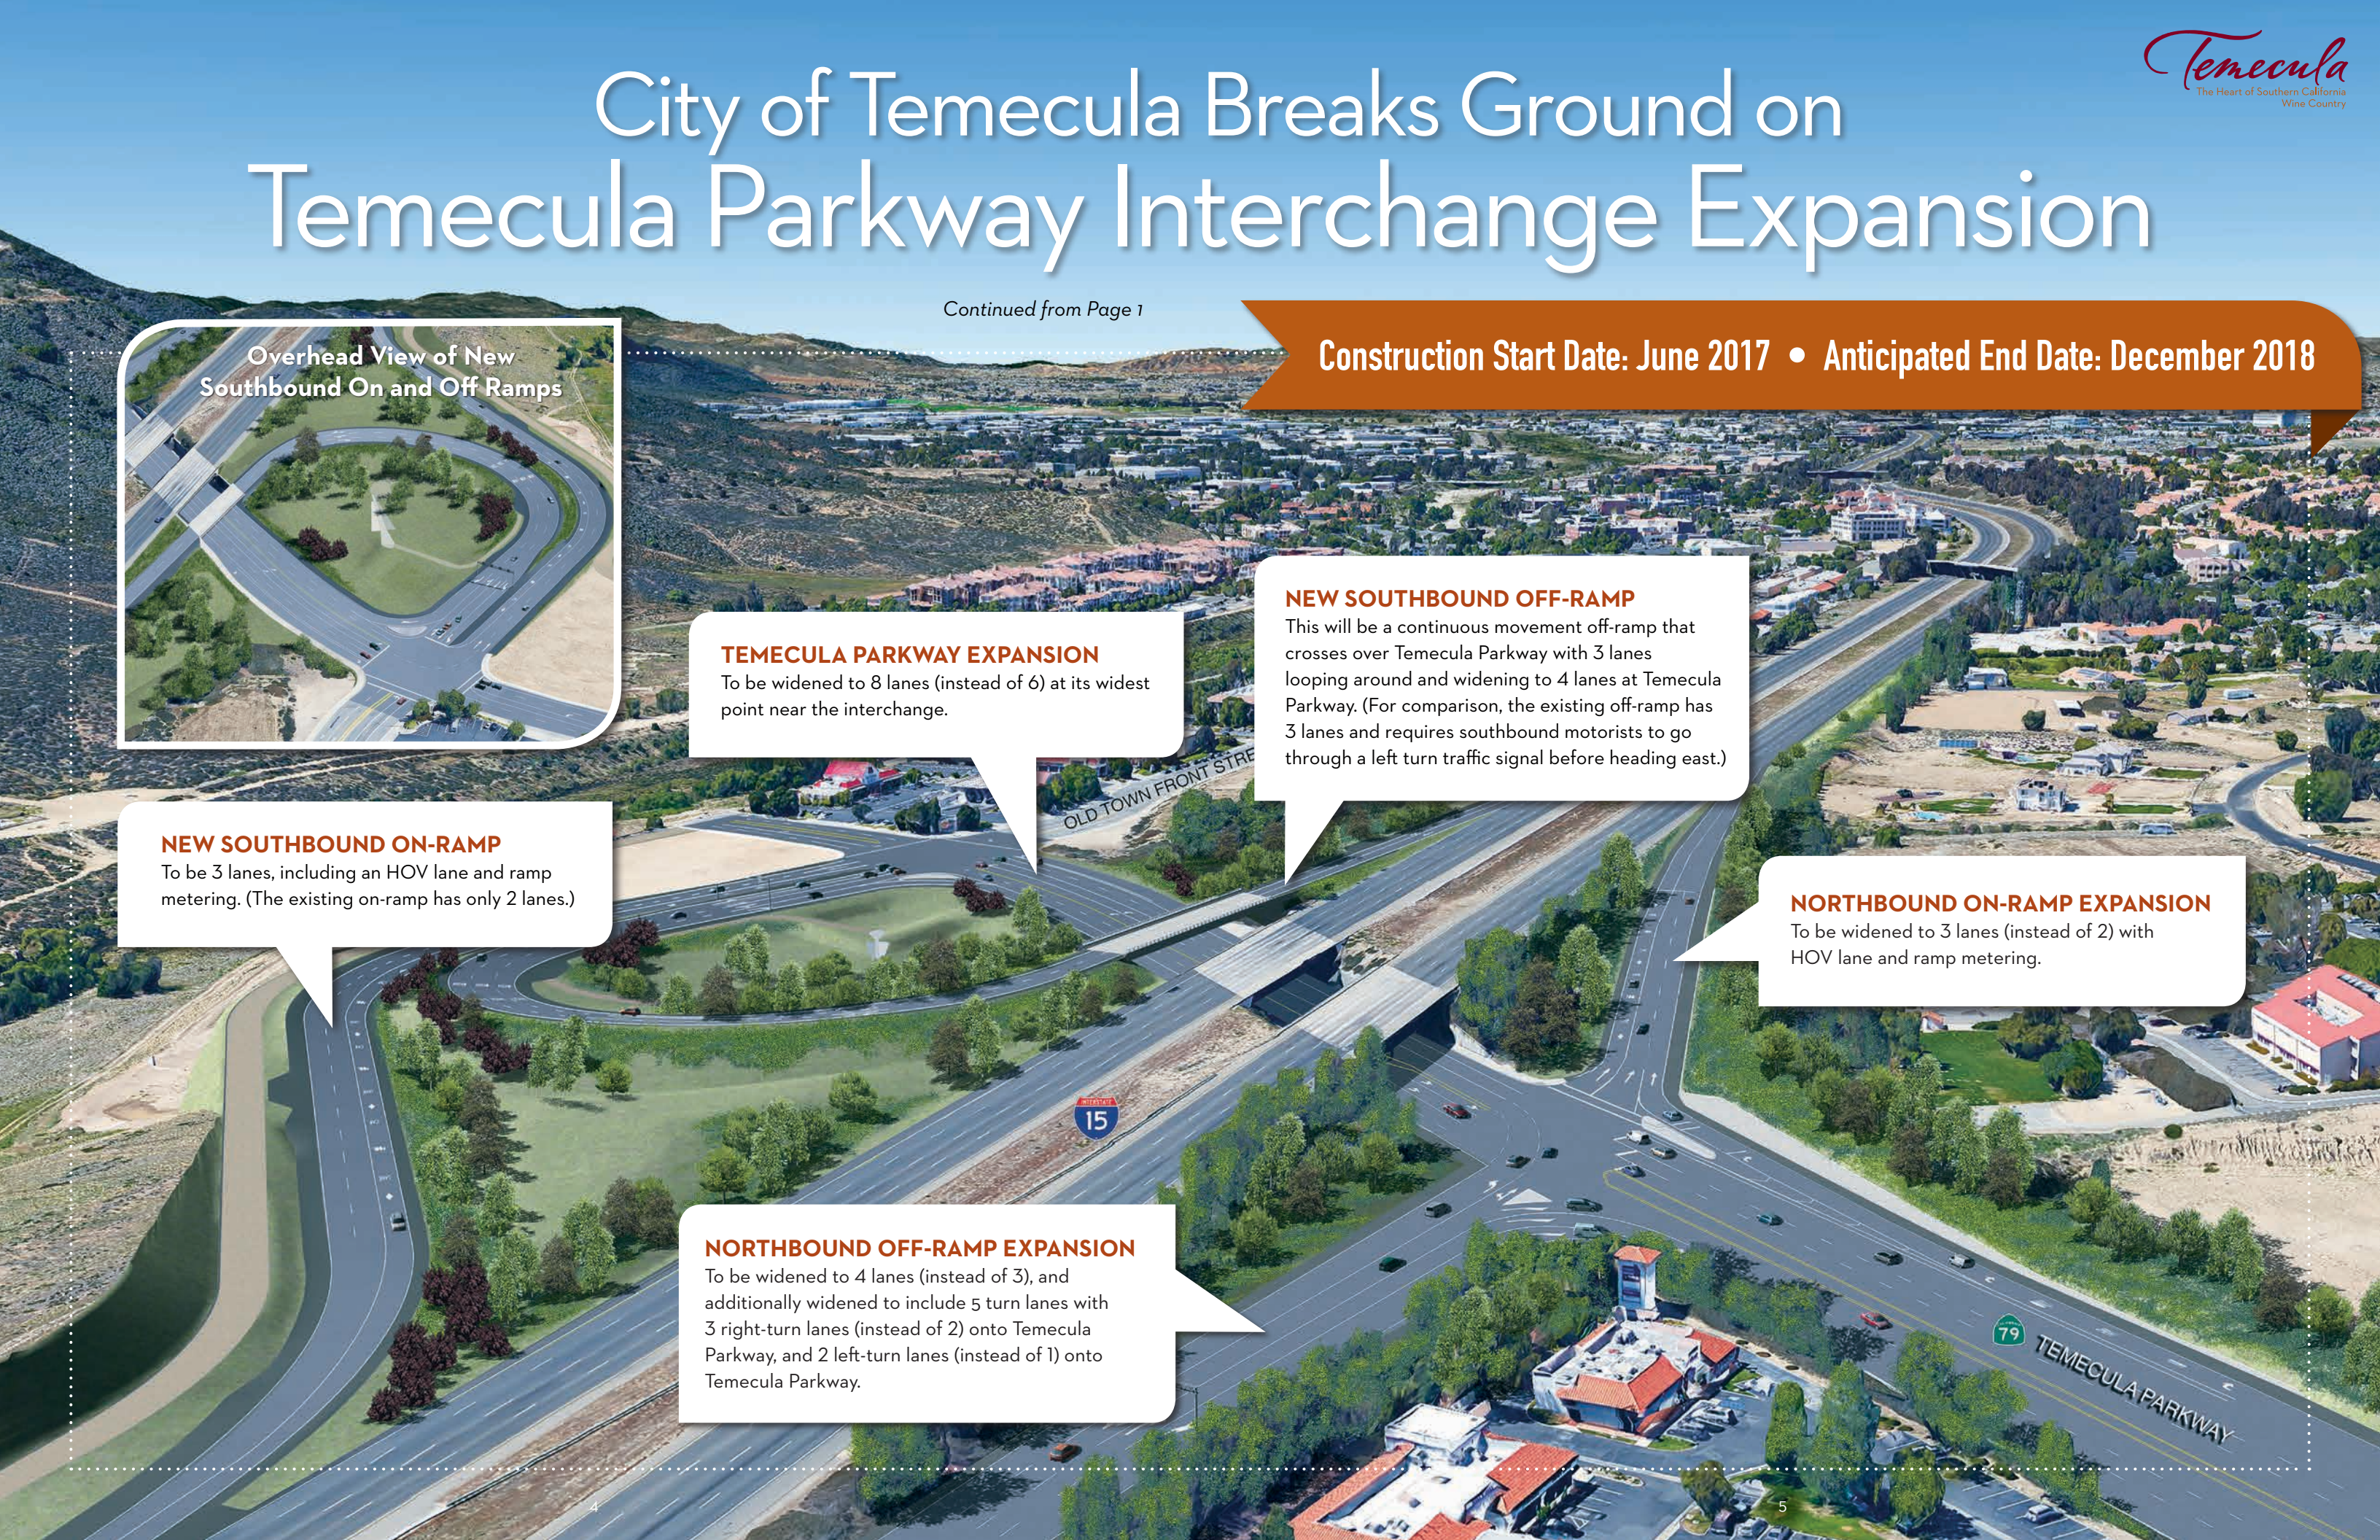

To be 3 lanes, including an HOV lane and ramp metering. (The existing on-ramp has only 2 lanes.)

NORTHBOUND ON-RAMP EXPANSION

To be widened to 3 lanes (instead of 2) with HOV lane and ramp metering.

NORTHBOUND OFF-RAMP EXPANSION

To be widened to 4 lanes (instead of 3), and additionally widened to include 5 turn lanes with 3 right-turn lanes (instead of 2) onto Temecula Parkway, and 2 left-turn lanes (instead of 1) onto Temecula Parkway.

MEASURE "S" AT WORK FOR YOU...

IMPROVING FIRE SAFETY

New Fire Station to Open January 2018 As a Direct Result of Measure S Funding

Located in the Roripaugh Ranch area at the corner of Butterfield Stage Road and Calle Chapos, Fire Station #95 is projected to open in January 2018 and will include the addition of 9 fire personnel staff.

More Fire Department Upgrades in Temecula

In addition to the opening of the Roripaugh Ranch Fire Station and the hiring of its associated fire personnel, the Temecula Fire Department will purchase:

- 1 New Ladder Truck
- 4 New Fire Inspection Vehicles
- » Upgrade Fire Station #84 with Improvements to its training room
- 2 New Fire Prevention Personnel hired with the implementation of a new fire inspection program

The City of Temecula maintains fire staffing levels of 4-persons per engine for the safety of its citizens. When fewer than four firefighters arrive on a fire scene, they are faced with the critical dilemma to delay the interior fire attack until additional resources arrive, causing further fire damage. Maintaining fire staffing levels of 4-persons per engine allows for the fastest, safest, and highest level of fire safety.

FIRE STATION #95**

IMPROVING INFRASTRUCTURE

Pavement Management Update

The City of Temecula Street Network consists of approximately 315.5 miles of roadway. Over the next several months, 100% of the paved roadway network in Temecula will be surveyed with innovative laser and camera technology collecting automated pavement condition data including roughness, pavement strength, wheel path rutting, transverse cracking, block cracking, alligator cracking and texture.

If you see these technologically equipped vans and trucks driving down your street, they are collecting pavement condition information to help the City develop a comprehensive street rehabilitation plan. Once all of the data is collected, it will be used to develop a series of reports that will better allow Temecula to cost effectively prioritize maintenance of the roadways.

If you see these technologically equipped vans and trucks driving down your street, they are collecting pavement condition information to help the City develop a comprehensive street rehabilitation plan.

Upgrades to Streets and Sidewalks

UTILIZING MEASURE **S** FUNDING WHERE NOTED

Arterial Street Paving in Progress

- WINCHESTER ROAD (Margarita Rd. to Jefferson Ave.)
- JEFFERSON AVENUE (Cherry St. to Rancho California Rd.)
- TEMECULA PARKWAY (Pechanga Parkway to the eastern City boundary)

No
Tolerance
For Graffiti

GRAFFITI HOTLINE: (951) 240-4201

Report graffiti immediately to the City of Temecula Public Works Department. The sooner it is reported, the sooner it can be removed.

Public Property: Graffiti on public property such as bridges, sidewalks and streets will be removed

promptly by the Public Works Department.

Private Property: Before any graffiti removal begins, determine whether the police may want to photograph it as evidence. **Removing graffiti promptly-within the first 24 hours if possible-is the best way to prevent it.** Prompt and persistent removal usually results in a nearly zero rate of recurrence. When painting over graffiti, save some of the paint for touch ups in the event of future vandalism. Look in the Yellow Pages under "Graffiti Removal" or the web for companies that specialize in cleaning up graffiti. For more information: TemeculaCA.gov/337/Graffiti.

.....
City Council Meetings are held on the 2nd and 4th Tuesdays each month at 7:00 pm in the Council Chambers at Temecula City Hall. Meetings are televised at the same time and date on Channel 3 on most local networks, and are available as streaming video on the City website at TemeculaCA.gov.
